TRAVEL IN STYLE

The Fox Browne Creative team **Chris Browne** and **Debra Fox**

"Easy pull, smooth glide. A fast mover when one is late for the plane. But I panic about my wardrobe. What would I wear with this case! And there are too many hiding places. I don't want to even think about where I'm supposed to put my socks! It would have been better with a light interior. I have lots of black in my wardrobe and would need a headlamp to find things." - Chris

"I LOVE COMPARTMENTS AND POCKETS, BUT THESE ARE ALL BLACK! I WOULD HAVE TO THINK COLOUR WHEN PACKING." - DEBRA

THE QUICK BROWNE FOX

Specialising in luxury hospitality design in remote locations, Fox Browne Creative is going from strength to strength.

FOR more than 25 years, Chris Browne and Debra

Fox have applied their skills and expertise to the development of luxury lodges, boutique hotels and private homes in the bush, from concept stage to operation.

Hospitality design, says Chris, is a formula centred on guest experience. "That said, guests have become much more educated and sophisticated, so authenticity and integrity are at the heart of all design decisions we make. What has evolved is technology, which has enabled us to do so much more in much shorter periods of time."

As regards the local design landscape, "The

future of decor and design in South Africa is extremely bright," says Chris. "We are in awe of how the VISI team has managed to fill 100 issues with material from sub-Saharan Africa... That's a lot of home-grown content!"

Chris and Debra are in the process of rebranding Fox Browne Creative. "In addition," says Chris, "we are busy with projects in Namibia, Mozambique, Zambia, the Serengeti, Bhutan... Then there's our newly opened London office, from which we will focus on growing our UK and European business."

"The work we do has allowed us to fulfil our passion for hospitality design, making the world a better, prettier place."
